Introductory

The present volume for the year 1962 is the fifty-fifth edition of Henderson's Directory of Saskatoon the first being in 1907.

Three Major Departments

The three major departments are arranged in the following order:—

I. THE BUYERS' GUIDE, printed on yellow paper, constitutes the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings — a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Saskatoon, and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, printed on green paper, is the third major department. In this section the named streets and avenues are in alphabetical order followed by the numbered streets in numerical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

Advertising Saskatoon

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational centre. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city, the publishers have placed copies of this issue of the directory in libraries across the country where they are readily available for reference use by the public. There they serve as perpetual advertisements of Saskatoon, for businessmen the country over realize that the City Directory represents the community as it really is.

Estimated Population of Saskatoon, 101,000

This Directory estimate of population is based on the 1961 Dominion Census of 92,367 with correction estimated to date. The Saskatoon City Directory covers considerable territory beyond the metropolitan area, which is canvassed in order that the names of all people employed or who purchase in Saskatoon may be obtained.

Respectfully, The Publishers,

December, 1962

HENDERSON DIRECTORIES LIMITED

Publishers' Note

The information in this directory is gathered by an actual house to house canvass, and is compiled in a way to insure maximum accuracy.

The Publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors and omissions, hence no responsibility for same can be or is assumed.

The Publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next Directory.

City of Opportunity

Saskatoon, founded in 1882 on the lordly banks of the swiftly flowing South Saskatchewan River, offers today opportunities as great, if not greater, than those of any city on the western plains.

The city, which was known in the early years of the century as the "Miracle City of the West" because of its tremendous growth from a hamlet to a thriving community of 30,000 population in little more than a decade, is again on the march. Developments already underway mark the city for further growth greater even than that which first brought it in to prominence. The population of Saskatoon today is estimated in excess of 97,000.

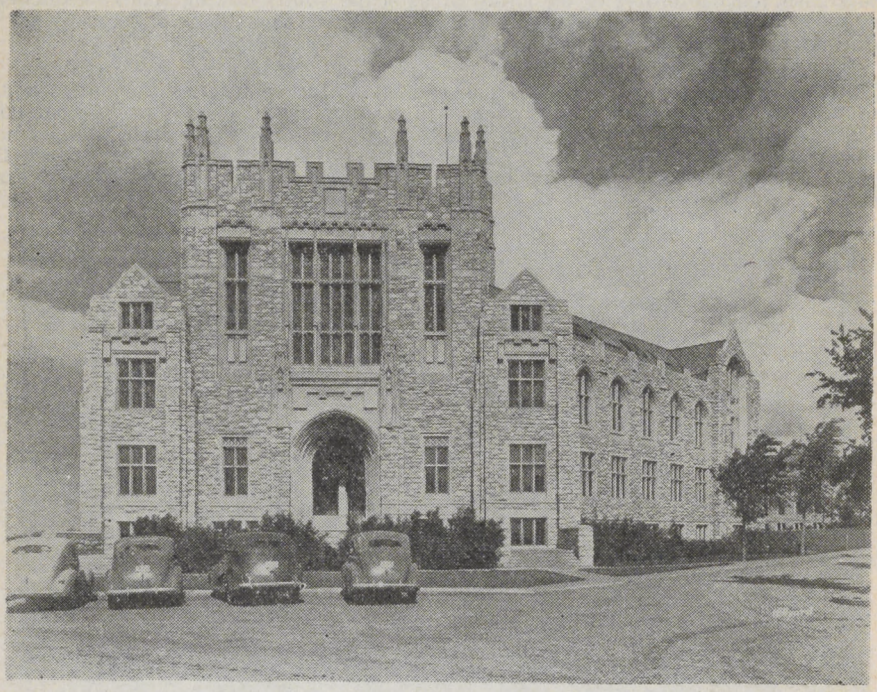
21st Street looking East. Photo by Len Hillyard

All indexes of prosperity point upwards. Bank debits and clearings, earnings of municipally owned utilities, post office revenues, building permits, wholesale and retail sales, and the value of manufactured products all show continuous and spectacular growth, and, at the time this is written, have generally established new highs in the city's history.

The city is centrally located on the prairies; it is in the heart of one of the world's greatest grain growing areas; it is the site of the University of Saskatchewan with its unexcelled College of Agriculture.

Since the second World War the University of Saskatchewan has undergone a period of phenomenal expansion. Major building construction since that time has included an addition to the Engineering building, construction of the John Mitchell building (Soil Science and Dairy Science), School of Vocational Agriculture, Animal Diseases Laboratory, Heating and Power plant, Maintenance building, the Medical College, the Memorial Students Union building, Gymnasium, The Murray Memorial Library and such University farm buildings as a grain elevator, loose housing barn and milking parlor unit, a modern research piggery, a workshop building and a 240 acre irrigation demonstration project. Other new buildings recently completed or still under construction include an Animal Husbandry Building, the W. P. Thompson Biology Building, an artificial ice Curling Rink and the Arts building, which on completion with its four separate wings and the central

seven story office wing will be the dominant feature of the campus. At least as important as the buildings mentioned are those non-University buildings located on the campus which have been built since the war. The Prairie Regional Laboratory of the National Research Council and its new addition, the Saskatchewan Research Council building, the Canada Agriculture P.F.R.A. building, the Saskatchewan Cancer and Medical Research Institute and its annex building, together with the Dominion Science Services Laboratory comprise facilities for research that make Saskatoon one of the most important research centers in Canada. Affiliated colleges located on the University campus include the



One of the fine University Buildings. Photo by Len Hillyard

newly constructed St. Thomas More College as well as St. Andrews College and Emmanuel College both of which are completing plans for major construction projects. Among the most impressive building on the University campus is the $10,000,000 University Hospital which was completed and officially opened in 1955 the Provinces Golden Jubilee year. This highly efficient 550 bed hospital incorporates the most modern hospital features and is completely equipped with the latest apparatus.

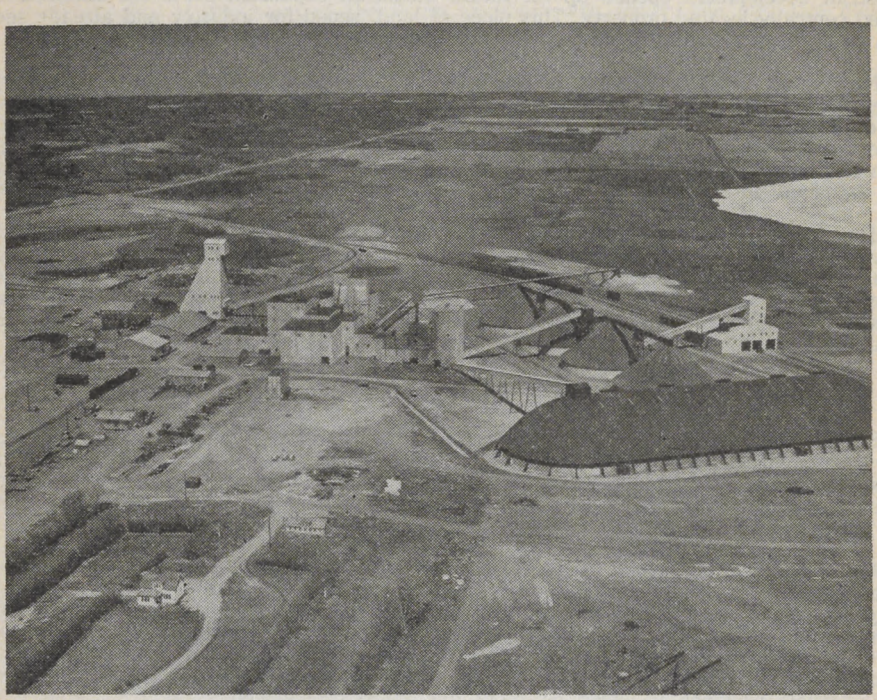
In addition to the program just outlined which is either underway or now completed, the University recently announced a $14,000,000 building program to be completed within the next five years to expand the University facilities to meet the expected doubling of enrollment to 8,000 students by 1964-65. A major part of the $14,000,000 will be used for such construction as two additions to the Engineering building, buildings for Chemistry, Pharmacy, Home Economics, Commerce, Law, Fine Arts, Student residences and Junior faculty housing, food services, and additions for Library, Veterinary Science, Gymnasium and Swimming pool, Medical Research Institute as well as additional farm buildings, roads, parking and street lighting, water and sewer systems, landscaping and other major renovation and conversion projects.

With the extension of the University property holdings and the numerous additions to University facilities the University of Saskatchewan with its grey stone buildings has become one of the most important in Canada as it is one of the most beautiful. The people of Saskatchewan take great pride in this University and expect it to continue to grow in usefulness and beauty.

Saskatoon's educational institutions offer complete training from kindergarten to university. This fact appeals strongly to parents. A child may begin in public school, proceed to high school and thence to the university from which he may graduate in Arts or in several professional courses — all without leaving Saskatoon.

Not only is the city in the centre of tremendous agricultural resources but it is also next door to some of the most important oil, natural gas, salt and potash discoveries made anywhere in Canada in the last few years. The concentration of these as yet undeveloped resources in the Saskatoon area, undoubtedly, will contribute greatly to the growth of the city.

Post War Oil exploration lead to the discovery of potash and later developments have proven a bed of this salt which underlies a strip across the province widening out at Saskatoon. Adjacent to Saskatoon a $25,000,000 Potash mine and refinery was brought into production last year. Other companies holding potash development rights in the Saskatoon area will soon erect similar facilities to develop what has been referred to as the largest and purest known deposit of potash. A mining official was quoted as saying his companies' reserves would be adequate for full production for the next century or so. The Potash industry promises to become one of the most important resource developments in the province.



Potash Company of America Mine and Refinery.

Photo by Len Hillyard

As the "hub" of a large and rich trading area, and as the geographical centre of the inhabited portion of the prairies, the city commands a position unrivalled by any other western city. Its trading area takes in half of the population of Saskatchewan.

Industrial Development

Although many of Saskatoon's industries are related to the agricultural industry and the processing of agricultural products, in recent years there has been a diversification of the industrial base of the community as well as a rapid growth. During 1958 about $85,000,000 worth of products were produced in the plants of the various Saskatoon industries. In total there are now 300 separate manufacturing operations in Saskatoon both large and small, engaged in such pursuits which vary from the production of Cobalt bomb unit used by hospitals for cancer treatment to the more recent production of a variety of building boards for distribution throughout western Canada. It is interesting to note that the cobalt bomb was first designed and built in Saskatoon and that the building boards are made from local wheat straw under a process developed at the Prairie Regional Laboratory of the National Research Council on the University in Saskatoon. Flour milling, meat packing, dairying, oil seed extraction, and feed production still remain important agricultural based Saskatoon industries.

In addition there are iron works, steel fabricators, boiler manufacturers, foundries, machine shops, printing establishments, bakeries, breweries, furriers, bottling works, oil refineries, planing and woodworking mills, stone works, lithographers engravers and manufacturers of road machinery, furniture, paper boxes, vinegar, clothing, stokers, chemicals, tents and bedding, brushes, candy, crests and pennants, concrete products, farm machinery, building products, and many others.

The South Saskatchewan River which passes through the city offers an unlimited supply of water for domestic, commercial and industrial use. The city of Saskatoon water works is described as among the most modern in western Canada and has been built with the capacity to take care of the needs for some time of a rapidly growing city. Saskatoon was the first city in Saskatchewan to be served with natural gas. The availability

of this efficient convenient fuel has proved an asset and attraction to the industrialization of Saskatoon. With the completion of the first unit of the $40,000,000 Queen Elizabeth Power Station, Saskatoon has become the chief power generating centre of the province. Electrical energy produced at Saskatoon provides for the city's needs as well as a substantial amount for the provincial grid system.

There are more than 1,900 business places of all kinds in the city, including, in addition to the 300 manufacturing establishments, 189 wholesale and over 750 retail stores. Some very choice industrial sites, owned by the city, can be purchased at low rates. A recent industrial development opened up for future industrial expansion some 100 acres of city-owned centrally located property. This piece of land, zoned for industry and already served with railway spur facilities, offers excellent opportunities to new industries.

Now under construction south of Saskatoon is the huge $185,000,000 South Saskatchewan River Irrigation and Power Project. The Construction schedule calls for the completion of the dams and structures within five years and will at that time, mark the beginning of large scale irrigation in the Saskatoon area. The industrial opportunities which will grow from this huge project and the irrigation farming which will surround the city of Saskatoon will contribute in a large way to the rapid growth of the city predicted for the future.

The present program of expansion at the university, together with the large industrial activity already underway in the city, points to an increase of 25% to 50% in the city's population in the next five to ten years. This additional population will require not only many extensions to present services, but also many new servicing establishments. Business concerns, therefore, interested in the value and possibilities of a locality as a business location should not overlook Saskatoon when planning new outlets for their products.

Distribution

Saskatoon's distributing area, due to the city's central location on the prairies, is very extensive. It is more than 70,000 square miles in size and takes in some of the most productive grain growing land in Canada. It includes two large cities and a dozen or more large-size towns. It comprises generally the northern half of the province of Saskatchewan and takes in close to half of the province's population.

As a redistributing centre for the whole province Saskatoon has the edge. It is exactly in the centre of the inhabited portion of the province. Fifteen railway lines feeding into every section of the northern part of the province converge on Saskatoon and district as a centre, and several of these lines link up with other lines from other urban centres, to give Saskatoon ready access to all parts of the province. As the population trend in Saskatchewan is definitely northwards, Saskatoon's advantage as a redistributing centre for the whole province is becoming more and more pronounced.

The Saskatoon airport which is among the three busiest west of Toronto boast a new modern air terminal building. In addition to east west transcontinental air service enjoyed by the city of Saskatoon airport is also the base of operations for an intercity air service connecting major points in Saskatchewan and Alberta. Customs service is available for foreign aircraft entering the country and landing at Saskatoon.

At the present time national attention is being focused on Canada's northland which is known to be one of the most highly mineralized areas in the world. Saskatoon's proximity to the north land and northern development will also play an important part in the future of this city.

Transportation

Saskatoon is particularly well served by Canada's two great railway systems. The city is on the main transcontinental line of the Canadian National Railways and on the Northern Main Line of The Canadian Pacific Railway. In addition, there is a veritable network of lines on both systems radiating from Saskatoon to all parts of the city's trading area.

The city is on the main line of Trans-Canada Airlines connecting New York via Montreal, Toronto, Winnipeg, Saskatoon, Calgary and Edmonton with Vancouver and Alaska. The Saskatoon airport is one of the largest in Canada. Runways more than 1½ miles in length are designed to carry the largest planes.

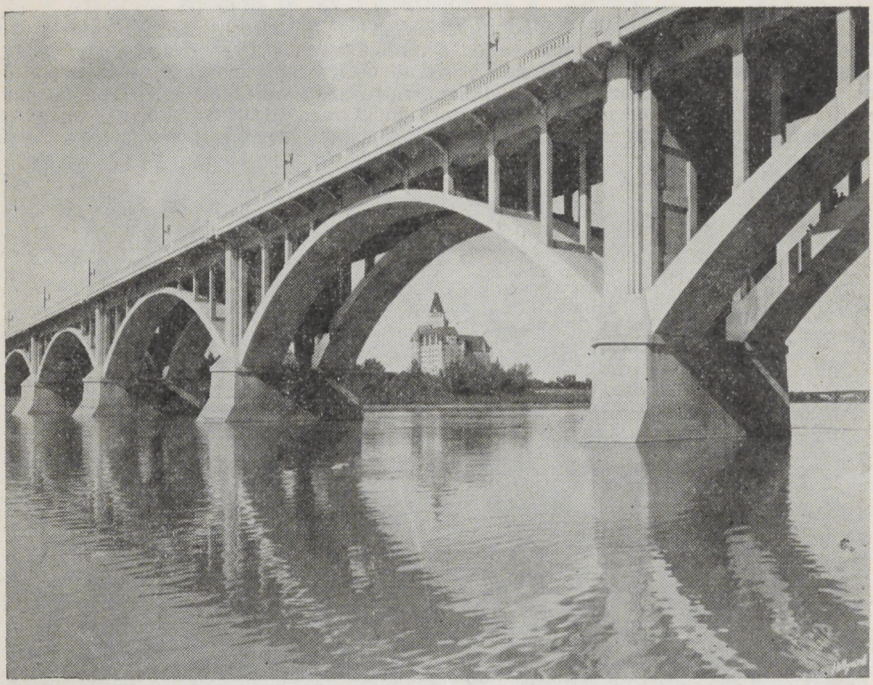
The Saskatchewan Transportation Co. serves the city with daily buses to and from all important towns and cities on the prairies, and provides through transportation linking up with all of the main bus lines on the North American continent.

Because of the excellent transportation facilities and the ease with which Saskatoon may be reached, the city is the locale annually of many hundreds of meetings of regional, national and international organizations. Saskatoon is the only city on the prairies which can be reached from all other main centres in an overnight run.

The Saskatoon transit system is owned by the city and has undergone complete modernization. Repeated expansions in the system has been made necessary by the rapid growth of the city. This enables all areas in the city including new areas to be well served in public transportation.

The City Beautiful

Visitors rarely fail to remark upon Saskatoon's lovely appearance and beautiful surroundings and frequently refer to it as the "Garden City of the West." Beautifully and picturesquely situated in the bend of the South Saskatchewan River, the city has made



Bessborough Hotel through an arch in the Broadway Bridge.

Photo by Len Hillyard

the most of its location. Six bridges, two of them noted for the beauty of their architecture, traverse the swiftly flowing river and provide interesting geometrical designs as their forms become mirrored in the water below.

A dam, which raises the level of the part of the river flowing through the main portion of the city, slows the current and greatly enhances the river's appearance. Many scenic parks abound along the river's banks.

Standing like a baronial castle on the river's edge and displaying its massive but graceful form is The Bessborough Hotel, famed in Canada for its superb accommodation and service. The Bessborough hotel grounds, with their sunken garden and colorful array of shrubs and flowers, are unrivalled anywhere in Canada.

Adding to the beauty of the city are more than 50 parks which include the landscaped banks of the South Saskatchewan river in the heart of the city.

The buildings of the University of Saskatchewan constructed from native stone and possessing distinctive architecture, crown the height of land northeast of the city. The university buildings and the beautiful Memorial Gates at the entrance to the grounds—the latter built in remembrance of the students who died in the first great war—never fails to arouse the admiration of tourists and visitors.

Saskatoon is known for its beautiful schools and educational institutions. In addition to the University of Saskatchewan, the city is the site of the Saskatchewan Teachers College, the School for the Deaf, and the Provincial Vocational Training School. There are four collegiates and fifteen elementary schools. Saskatoon is thus the educational centre of the province, and because of this caters annually to about 5,000 students from centres outside of the city.

Lovely homes and gardens, beautiful churches and buildings, wide streets, bordered with a variety of trees, well-kept parks and a general cleanliness which gives the city always a spick and span appearance, all go to make Saskatoon a truly beautiful city.

Sporting Activities

Saskatchewan is a sportsman's paradise. It offers the finest upland and migratory bird shooting of any area in Canada. Moose, deer, caribou, elk and antelope abound and may be hunted in season. The number of hunters from outside the province who have come to realize that Saskatchewan's northern regions form a natural homeland for big game is large and is annually increasing. Many of these hunters make Saskatoon their headquarters during the hunting season.

Prince Albert National Park, 160 miles north of Saskatoon and its widely known summer resort, Waskesiu, is a mecca for summer tourists. Cars from all states of the union and from all provinces of Canada bring annually thousands of tourists to Saskatchewan's largest summer resort. Manitou Lake, Watrous, 83 miles by road from Saskatoon, is another noted Saskatchewan summer resort and famed for the medicinal value of its waters. Many other resorts in Saskatchewan also attract annually their quota of visitors.

The $200,000,000 Irrigation and Power project on the South Saskatchewan River now under construction near Saskatoon. Photo by P.F.R.A., Dept. of Agriculture.

The South Saskatchewan River Dam on completion will impound water to form a lake with over 400 miles of shore line. This lake together with other reservoirs created by the project in the Saskatoon area will provide recreation facilities for many residents of the province as well as large numbers of tourists.

Saskatchewan is famed for its many beautiful and scenic lakes teeming with fish. In these lakes are found whitefish, trout, bass, pickerel and pike, while the rivers yield in addition the highly prized goldeye.

All roads to Saskatchewan's resorts pass through Saskatoon. Saskatoon itself provides many sporting facilities. The city possesses two of the only three watered golf courses in the province, the third being at Waskesiu. The city can boast of three outdoor swimming pools, a boating club, several bowling greens, an artificial ice skating rink, six curling rinks, a baseball stadium and an exhibition grounds and race track.

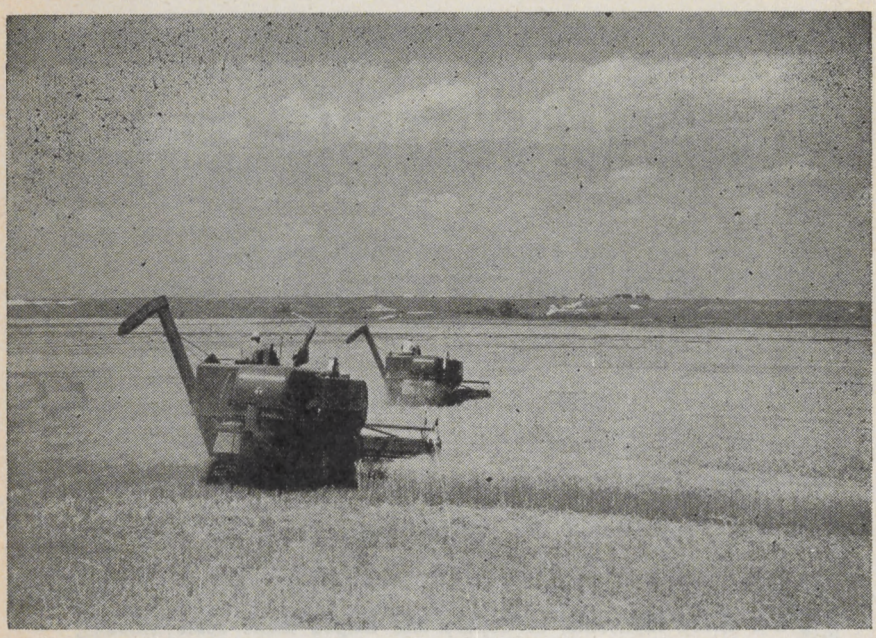
Pionera has become an outstanding annual attraction in Saskatoon. This huge outdoor show during the first week in July, together with the annual Exhibition the third week in July, brings many visitors to Saskatoon. Hotels, motels and auto courts as well as a new camp ground to accommodate the increasing numbers of tourists taking camping vacations, provide first class accommodation for these Saskatoon visitors.

The Heart of Canada's Largest Wheat Growing Area

Saskatchewan enjoys the reputation of producing more wheat and other grains than any other province in Canada. In the total value of its agricultural products Saskatchewan stands generally next to the Province of Ontario, although on several occasions it has shown the way even to that province.

Saskatoon is in the very heart of the Province's richest and most productive areas. As testimony of this is the fact that in Saskatoon are located three of the largest flour and cereal mills in the west. The Robin Hood, Quaker Oats and Wheat Pool plants, all located in Saskatoon, have a daily capacity among them of upwards of 8,000 barrels.

Agricultural societies, industrial exhibitions and livestock organizations have, over the years, helped tremendously to increase and improve the quantity and quality of the province's livestock. Because of its importance as a livestock centre, Saskatoon was chosen by the Intercontinental Packers, Limited, a European business concern forced out of Europe because of the war, as the location for its Canadian plant. This plant, established in 1941, is being steadily extended and at present is capable of processing daily some 1,800 hogs and several hundred head of cattle and other livestock.



Prairie Harvest Scene. Photo by Len Hillyard

Mixed farming has contributed greatly to the wealth of Saskatoon's trading area. More milk is shipped into Saskatoon than, possibly, to any other point on the prairies. It has not been unusual for Saskatoon to supply other cities in Saskatchewan and even in Alberta, with milk. The city, being the centre of the largest milk shed on the prairies, would be expected to exceed all other centres in the manufacture of butter, cheese and milk powder. This it does. The Daily Pool, with its headquarters in Saskatoon, manufactures the only processed cheese produced in the province. Its blue vein cheese, which is in great demand, is rated as amongst the best cheese of its type made anywhere.

The poultry industry in Saskatoon and district has shown great growth in the last few years. Seven hatcheries in Saskatoon supply over two and a quarter million chicks annually to those engaged in the poultry business.

Saskatoon's role as the centre of the livestock industry in the province can clearly be seen from statistics which indicate a dollar value of livestock passing through the market in this city being nearly equal to the total value of livestock passing through all other markets in the province. To this must be added the comment that the half million acres to be irrigated in the Saskatoon area, on the completion of the South Saskatchewan River project, will largely be devoted to a livestock economy. This will make Saskatoon one of the most important livestock centres in Canada.

In summary it might be noted that Saskatoon is one of the fastest growing cities in Canada. In the five year period between the official census of 1951 and 1956 Saskatoon's population increased by 34%. Since 1956 this population increase has continued at an accelerated pace. In a word Saskatoon is an educational, industrial, distribution, research, transportation city in the centre of the rapidly growing western market between the great lakes and the mountains. Diversified industry, irrigation, potash and northern development together make a bright future for Saskatoon.

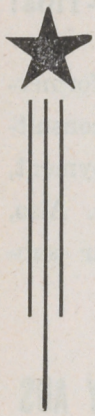
CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

★

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CAUTION . . .



Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

VITAL INFORMATION

At Your Finger-Tips!

★ Tens of thousands of people who were formerly strangers to the City Directory are consulting it on questions of citizenship, employment, sources of supply, communication, etc. Also, Directory usage is up among regular subscribers.

DO YOUR EMPLOYERS FURNISH YOU WITH THE LATEST EDITION OF THE CITY DIRECTORY?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Do your employers furnish you with the latest edition of the City Directory?

★

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

We Need Your Patronage on
ALL YOUR HARDWARE NEEDS

BECAUSE:

Besides giving you prices that are competitive with hardware store items that are easy to handle or large sale articles stocked by other types of stores, we give you service and help by experienced hardware sales people. We carry bolts - nuts - nails - washers and electric small fittings and hundreds of other items that take time and patience to serve with little or no profit. So when you need pots or pans or large or small appliances - china - paint or sporting goods remember the store that gives you cheerful service on the little items that are so important to both of us but by themselves not the type of sales that keep a hardware store in business.

SEE US FOR:

GENUINE FRIGIDAIRE ELECTRIC REFRIGERATORS — RANGES — AUTOMATIC WASHERS AND DRYERS.

GENERAL ELECTRIC — SUNBEAM — EVERBRIGHT small electric appliances such as TOASTERS — KETTLES — FRY PANS — ETC.

We always carry BIG stocks at LOWEST prices.

SPORTING GOODS on the mezzanine floor with a wonderful selection for HUNTERS — FISHERMEN — GOLFERS — GIRLS & BOYS & YOUTHS supplies and all priced COMPETITIVELY.

GENERAL HARDWARE section with BUILDING and DO-IT-YOURSELF supplies. POWER and HAND TOOLS sold to you and serviced by EXPERIENCED HARDWARE SALESMEN.

KYANIZE PAINTS AND ENAMELS sold to you by people that can give you ADVICE AND ASSISTANCE IN ITS APPLICATION AND YOU PAY NO MORE.

OUT OF SIGHT--OUT OF MIND — OUT OF BUSINESS —

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

THE CITY DIRECTORY IS THE NATURAL MEDIUM FOR KEEPING A BUSINESS OR PRODUCT NAME IN THE SPOTLIGHT.

INSIST ON BEING WELL REPRESENTED IN ITS PAGES.

Do your employers furnish you with
the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

OUT OF SIGHT--OUT OF MIND

— OUT OF BUSINESS —

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

THE CITY DIRECTORY IS THE NATURAL MEDIUM FOR KEEPING A BUSINESS OR PRODUCT NAME IN THE SPOTLIGHT.

INSIST ON BEING WELL REPRESENTED IN ITS PAGES.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

★

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

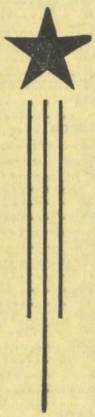
VITAL INFORMATION

At Your Finger-Tips!

★ Tens of thousands of people who were formerly strangers to the City Directory are consulting it on questions of citizenship, employment, sources of supply, communication, etc. Also, Directory usage is up among regular subscribers.

MORE PEOPLE ARE SEEING CITY DIRECTORY ADS

CAUTION . . .



Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

HENDERSON'S

SASKATOON

CITY DIRECTORY

1962

Copyright, 1962, by Henderson Directories Ltd.

For List of General Abbreviations see Opposite Page

EXPLANATION

Wives names are listed with husbands, the name of the wife is shown in parenthesis following the husband's as follows: Gregory Richd M (Mary L).

In case of a widow by death, wherever possible the name of the deceased husband is shown in parenthesis as follows: Gregory Mary L (wid Richd M).

The occupation and place of employment is listed as follows: Gregory Richd M (Mary L) sismn Starr Clothing Co.

Names in **heavy type** denote advertisers in this City Directory.

Ownership or co-ownership of a firm is indicated by showing the individual's name in parenthesis following the firm name, as follows: Carson Grocery Co (Geo B and Paul N Carson).

A firm name enclosed by parenthesis indicates ownership or co-ownership by the individual whose name precedes, as follows: Carson Geo B (Carson Grocery Co).

The head of the house is indicated by h preceding the street address; other members of the family and roomers are indicated by r preceding the street address.

for Quality Printing ...

Quality printing is an art. It is the result of combining the skills of highly trained craftsmen with modern equipment to create appealing products.

For over 25 years Midwest has been a leader in the art of quality printing. From this background of experience we can offer the ultimate in layout and arrangement — modern pleasing type faces — appealing color that will add sparkle to your printing requirements, be it letterpress or offset.

Whether you want a "fire-sale" circular, a distinctive brochure or a dignified letterhead we are able to meet your every need.

In the matter of printing may we offer our creative assistance and conscientious service?

At your service . . .from a one color business card to a four color map — publications — folders — catalogues — office forms — labels — programs.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

★

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

HENDERSON'S

SASKATOON

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1962

Copyright, 1962, by Henderson Directories Ltd. Winnipeg

In the following list the avenues and streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. The profession or business of individuals or firms is given only at their respective places of business; to find occupations of others refer to Alphabetical List of Names.

The symbol Ⓞ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol △ preceding the names denotes houses having telephones.

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First two personal calls were made by an enumerator; next, a post card was mailed and the telephone used when possible.)

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

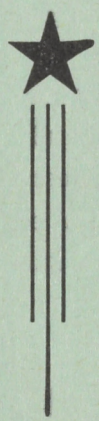
MORE GOODS ARE BOUGHT AND SOLD THROUGH THE CLASSIFIED BUSINESS LISTS OF THE DIRECTORY THAN ANY OTHER MEDIUM ON EARTH

CAUTION . . .



Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

VITAL INFORMATION

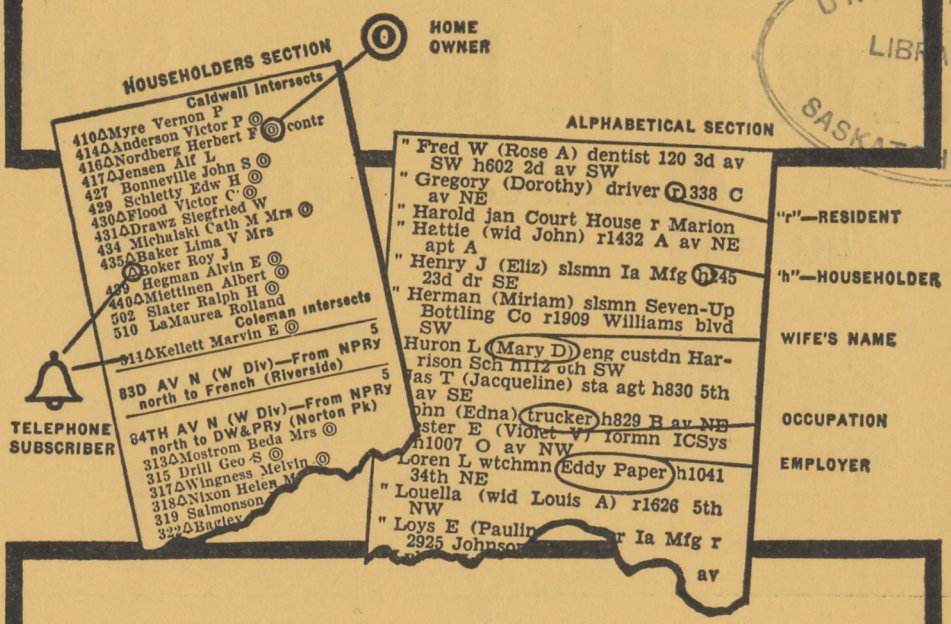
At Your Finger-Tips!

★ Tens of thousands of people who were formerly strangers to the City Directory are consulting it on questions of citizenship, employment, sources of supply, communication, etc. Also, Directory usage is up among regular subscribers.

MORE PEOPLE ARE SEEING CITY DIRECTORY ADS

DIRECTORY SYMBOLS AND DESIGNATIONS

UNIVERSITY LIBRARY SASKATCHEWAN



IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.
